

This is a request to not change the current guidelines for vulgarity, nudity, violence, etc on TV. It's hard enough now to try and browse through channels without finding something offensive or totally inappropriate for young children. I know it is a parent or grandparent's job to protect their children in that way but it would be nice to have some help in that area. Any more real life seems to be vulgar and violent do we really need to have it brought right into our homes.
